

YES.

MY NAME IS SAM.

I've been using computers similar to the one seen below for over 20 years. I was raised with an appreciation for fine art and a history in the design field that not only includes the use of today's technology, but those of hand crafted illustration, type setting, and photography.

While technology has changed, my strong ability to adapt to these changes and to then apply them to design is a major reason I've found success in this industry.

SAM USES MORE THAN JUST A COMPUTER WHEN MAKING GRAPHIC DESIGN. THE PROCESS OFTEN BEGINS WITH A PENCIL, PAPER, AND SOME GOOD IDEAS.
